Once wrestler's feet are sticking out feet holes & hands out hand holes, attendant should fasten back Velcro flap & help wrestler stand onto their feet.

HELMET: Sumo Helmets are D.O.T. approved motorcycle helmets modified to be a Sumo Wig. Helmet fastens the same as a motorcycle helmet, run strap through both loops & then back through one loop, pull to tighten.

MITTENS: The mittens are important for both durability & safety of the game. Mittens prevent wrestlers from grabbing onto opponent's chest of suit & tearing (if tearing occurs, you will be charged repair or replacement costs). Mittens also prevent wrestlers from inadvertently poking eyes, causing cuts or scrapes to other wrestlers.

HOW TO PLAY: Wrestlers line up on the two small lines in center of mat. The object of a match is to wrestle opponent to the ground or get them to step out of the ring. The match stops when a wrestler falls to the mat or steps outside the ring.
