**QUICK FACT:** Do not pound poles into the ground!

### PARTS:

- 1 - net with a long section pole attached to each end
- 2 - long sections of poles
- 2 - short sections of poles
- 4 - guide ropes with metal rings attached
- 1 - leather ball
- 1 - carrying bag

### INSTALLATION:

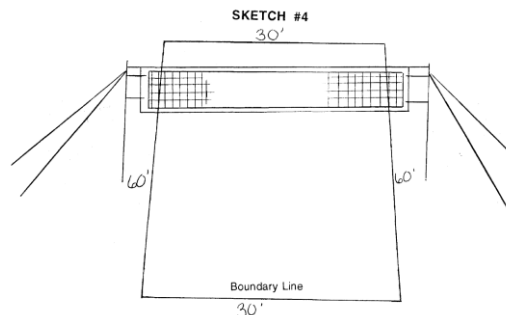

1. Unroll & spread out net
2. Assemble poles. Each side should have 2 long poles & 1 short pole. The short pole slides onto the bottom of the long poles. The short pole determines the height of the net.

3. Attach guide ropes to one side & stand pole upright. Slip looped end of both guides over the top of poles leaving the end to be used for stakes.
4. Put stakes through metal rings in the guide rings & position them approximately 6' out from the pole & 6' apart. Push or pound stakes into the ground. Be sure both poles are standing straight when finished.

5. Repeat steps 2-4 for the other side of the net.
6. Adjust the lower shock cord & stretch it around the pole & clip it to itself.
7. Mark your boundaries & have fun!
