

# VOLLEYBALL

## Broadway Party & Tent Rental

763-424-6155

www.BroadwayPartyRental.com

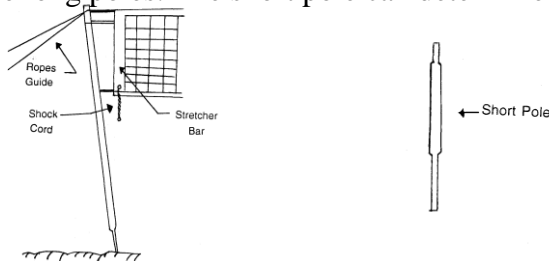

**QUICK FACT:** Do not pound poles into the ground.

### PARTS:

- |   |                 |
|---|-----------------|
| 1-net with a long section pole attached to each end | 1-boundary line |
| 2-long sections of poles                            | 1-carrying bag  |
| 2-short sections of poles                           | 1-leather ball  |
| 4-guide ropes with metal rings attached             |                 |

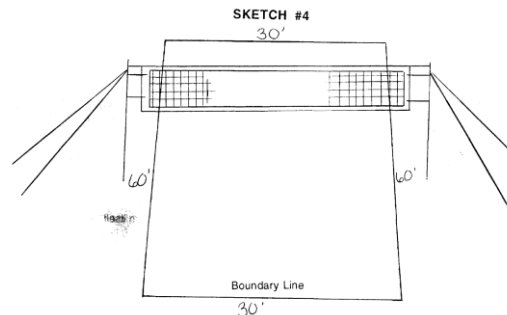

### INSTALLATION:

1. Unroll and spread out the net.
2. Assemble poles. Each side should have two long poles and one short pole. The short pole slides onto the bottom of the long poles. The short pole can determine the height of the net.

3. Attach guide ropes to one side and stand pole upright. Slip the looped end of both guides over the top of the poles leaving the end to be used for stakes.
4. Put stakes through metal rings in the guide rings and position them approximately 6' out from the pole and 6' apart and push or pound stakes into the ground. Be sure both poles are standing straight when finished.

5. Repeat steps 2-4 for the other side of the net.
6. Adjust the lower shock cord and stretch it around the pole and clip it to itself.
7. Lay out the boundary line. Roll up the boundary lines and walk around the court area, dispersing the boundary line as you walk. Square up the court and press in the anchors.
